

Ультра экономичная светодиодная лампа работает в трех цветовых режимах, (голубой, желто-зеленый, пурпурный). Лампа имеет четыре разных по яркости и по освещенности режима, что дает в разной области применения не так сильно уставать глазам, в сравнении с обычными лампами накаливания.

Характеристики

- Вес: 2 кг.

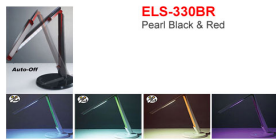

- Размеры: 210мм(W) x 450мм(H) x 350(LED Lamp)
- Потребление: 10W
- Питание: DC 12V/3A блок питания
- Режимы лампы: 3 цвета (голубой, желто-зеленый, пурпурный)
- Таймер: 30 мин, 1 час

Типы подсветки

1. Наука и математика - полезен для изучения таких предметов, которые предполагают логическое мышление и воображение
2. Память - полезен для изучения предметов вроде истории, в которых требуется долгая концентрация и внимание
3. Искусство - полезен в искусстве которое предполагает много воображения и креатива с мягкой и комфортной цветовой температурой
4. Сон - создайте приятную атмосферу в выборе мягких цветов, например, небесно-голубой, желто-зеленый и пурпурный.

LUMICHAL

- Ultra- energy- efficient replacement
- Long Life span from high luminance LED
- With no heat, mercury or UV in beam, Eco-friendly lights

No glaring / Efficiency Study Mode / Modern Design

LUMICHAL Table Stand

Benefits

- **Saving** Ultra- energy- efficient replacement (10W) for normal 30W bulb.
- **Highly Efficiency** Higher study efficiency and concentration by selecting light for the color subject.
- **Standard** It brings beautiful thinking and comforts by selecting colors of Sleeping Mode.
- **Blowproof Protection** LED is stable driving, without lighting vibration, protects your eyesight and gives comfort.
- **Ultra- energy- efficient replacement**
- **Long Life span** from high luminance LED
- **With no heat, mercury or UV in beam, Eco-friendly lights**

Specifications

Size	210(W) X 45(H) X 30(D) LED Lamp/mm	
Weight	2kg	
Consumption	10w	
Power	DC 12V(DA)0.8A(FIRE)	
Mode Lamp	3 Colors(Sky-blue, Yellow-green, Magental)	
Timer	30 min. ~ 1 hour	

Lux

Section Mode	Dimming	Color Temperature
Art Mode		Estimate 3000K
Memorizing Mode	1000 ~ 400lx	Estimate 4000K
Science and Math Mode		Estimate 6000K

This specification can be changed according to the development and improvement of products.
Test Condition: Under IEC60825 Standards: 10 min. after turning on Lamp.
